DANIEL SANTANDER URRUTIA

GEOPHYSICIST, SPECIALIZED IN SUSTAINABILITY

Harriesstraße 26 Kiel, Germany | danisantander.urrutia@gmail.com

29 years old. Geophysicist from the University of Chile, graduated with distinction. Currently a thesis student for the Dual Master's Program in Environmental Management at Christian Albrechts University (Kiel, Germany) and the Master's Program in Environmental Protection at Adam Mickiewicz University (Poznań, Poland).

SKILLS

Autodidact	Leadership	Effective communication	Science Communication
Teamwork	Programming	Project Management	Problem solving

EDUCATION

- **Dual Master's Degree (ongoing):** Environmental Management (CAU Kiel, Germany) and Environmental Protection (AMU Poznan, Poland) | 2023-2025
- **Geophysicist with Distinction,** University of Chile | 2021
- **Certified Permaculture Designer (CDP),** Chilean School of Permaculture and Agroecology (EPAC) | 2023

PROFESSIONAL EXPERIENCE

Researcher

- Water balance and soil dynamics, integrating aquatic and terrestrial systems
- Model of forest fire impacts on watershed ecosystems
- Biomass Industry Impacts with the Global Forest Coalition and the Environmental Paper Network

Environmental Policy Advisor

- Technical advice to the Constitutional Convention (waste, mining, climate, agroforestry transition)
- Parliamentary technical advice to coordinate public policies (fires, forests, water management).
- Development of watershed management plans and management of agricultural production transition.

Campaign Coordinator & Fundraising

- "Apruebo Rural" coordinator: campaign for a new constitution in Chile
- Dialogues on Forest and Jungle Management (Censat Colombia - RESUMOF Chile)
- "Only the people help the people": Campaign to aid victims of fires and floods

KEY PROJECTS

Master's Thesis:

- Carbon sequestration in wetlands and its relationship with adjacent terrestrial ecosystems

Projects in development (in contests and competitions)

- Integrating geophysics and plant bioacoustics for ecosystem health assessment.
- Smart Food Parks: Uniting nature and technology for SDG cities

Environment and Economy

- Study on the impacts of the pulp and paper industries and biomass burning
- Presentation at the Degrowth Conference (Oslo, 2025) on alternatives to the crisis
- (%) at the Environmental Justice Conference (Bonn, 2025) on the impacts of monoculture plantations

ADDITIONAL INFORMATION

- **Languages**: Spanish (Native), English (IELTS Academic – C1), German (A2-B1), Polish (Basic).
- **Certifications**: Green Economy and Financialization of Nature (CENSAT Agua Viva, 2022); R Modeling and GIS Satellite Data Management (Escuela Ambiental GIS, 2022); Climate Action Plan Design (ClimateReality, Chile 2023); BlueGreen Biodiversity (WSL Davos, Switzerland, 2025); Doughnut Economics (DEAL Copenhagen, Denmark, 2025); Interlinked Justice (Dresden - Germany).
- **Representations**: To environmental organizations at conferences and forums on justice and Climate Change (San José, Costa Rica, 2023; Bogotá, Colombia, 2023; Munich, Germany, 2025; Chile).
